

NetLease

Lease accounting compliance made simple

Automated lease accounting software

Navigating lease accounting standards is already complex, but when compounded by the challenges of cumbersome spreadsheets or difficult-to-use software, it can quickly turn into a nightmare.

Introducing NetLease: a user-friendly software solution crafted to streamline the entirety of the lease accounting process. With NetLease, all of your organization's leases are centralized within a single platform, empowering your team to achieve compliance efficiently while reclaiming time lost to manual, error-prone processes.

Lease accounting made easy

Ensure compliance with lease accounting standards

Safeguard compliance with ASC 842, IFRS 16, and GASB 87 & 96, backed by biannual external System and Organization Controls (SOC) reporting.

Enhance organization through one centralized platform

Simplify lease management and optimize organization by consolidating all your company's lease data into a unified, centralized platform.

Minimize errors and improve accuracy

Elevate reporting confidence by eliminating the necessity for second-guessing disclosures, journal entries, reports, and lease accounting standard-mandated footnotes.

Reduce costs and boost efficiency

Liberate your team from tedious, repetitive tasks, empowering them to concentrate on more valuable endeavors, ultimately cutting costs and improving efficiency across the board.

Lease accounting made powerful through dynamic features

AI-enabled lease abstraction

Save time by utilizing an AI-powered assistant to accurately upload and enter your organization's leases into the platform.

AI-powered chatbot

Receive instant support by tapping into Netgain's Copilot for questions about operating NetLease or lease accounting at large.

Unlimited users and leases

Provide NetLease access to as many employees as needed and seamlessly add an unlimited number of leases to the platform, allowing NetLease to grow in tandem with your company's expanding requirements.

QuickBooks integration and ERP connectivity

Boost efficiency with seamless integration into QuickBooks or by exporting journal entries to Excel for effortless upload into other ERP platforms.

Firm-wide training and product-adoption assistance

Seamlessly set up and navigate NetLease with its user-friendly interface and ongoing Netgain support, ensuring a smooth transition and sustained assistance after go-live.
