

NetLease

for Firms

Automated lease accounting software

Managing lease accounting compliance and workflows for your clients can be inherently complex, especially when exacerbated by the pitfalls of relying on error-prone spreadsheets or difficult-to-use software.

Introducing NetLease: a user-friendly software solution crafted to streamline the lease accounting process. With NetLease, your firm can consolidate and manage all your clients' leases into one platform, enabling your team to reclaim time lost to manual errors and prioritize higher-value tasks. Serve your clients more effectively and find peace of mind with NetLease.

Lease accounting made easy

Ensure compliance with lease accounting standards

Guarantee your clients' adherence to ASC 842, IFRS 16, and GASB 87 & 96, backed by biannual external System and Organization Controls (SOC) reporting.

Enhance organization through one centralized platform

Simplify lease management and optimize organization by consolidating all your clients' leasing data into a unified, centralized platform.

Minimize errors and improve accuracy

Enhance reporting confidence for your clients by eliminating the necessity for second-guessing disclosures, journal entries, reports, and lease accounting standard-mandated footnotes.

Reduce costs and boost efficiency

Liberate your team from tedious, repetitive tasks and empower them to concentrate on more valuable endeavors for your clients—cutting costs and improving efficiency.

Lease accounting made powerful through dynamic features

AI-enabled lease abstraction

Save time by utilizing an AI-powered assistant to accurately upload and enter your clients' leases into the platform.

AI-powered chatbot

Receive instant support by tapping into Netgain's Copilot for questions about operating NetLease or lease accounting at large.

Unlimited firm users, clients, and leases

Provide access to NetLease for all relevant employees within your organization, serve as many clients as needed, and upload an unrestricted number of leases to meet your clients' needs.

QuickBooks integration and ERP connectivity

Boost efficiency with seamless integration into your clients' QuickBooks platform or by exporting journal entries to Excel for effortless upload into your clients' ERP platforms.

Firm-wide training and product-adoption assistance

Seamlessly set up and navigate NetLease with its user-friendly interface and ongoing Netgain support, ensuring a smooth transition and sustained assistance after go-live.
